

SAFARI CHECKLIST

Items to remember to bring on your safari.

Since we want your safari experience to be perfect and completely comfortable, we recommend a few items we believe you should remember to bring along:

- Light jacket for summer safaris
- Comfortable pair of walking shoes and a pair of sandals / slip-slops
- Personal toiletries
- Swimming costume
- Binoculars, camera and video camera
- Spare memory card if you use a digital camera
- Spare batteries for camera or video camera
- Converter or adapter from your country should you want to charge or use your own electrical appliances
- Sunhats and sunglasses
- Sunscreen with a high protection factor
- Lip balm
- Extra pair of prescription eye glasses or contact lenses (if you wear them)
- Sufficient contact lens cleaning solution (if required)
- If you take prescription medication, be sure to bring a sufficient supply with you.

Try and keep colours neutral for the safaris. White is not a suitable colour for these activities, as it increases your visibility to wildlife and it will get dirty very quickly. Dark colours and colours that are very bright tend to attract unwanted insects and other types of bugs.

Should you be particularly sensitive to the sun, a loose cotton shirt is essential during the day. Khaki, brown, olive and beige colours are best for safaris.

Our summer months are from September to April. One should expect rain storms or drizzle, especially in the afternoon during this time. It is advisable to pack a windbreaker or waterproof jacket for game drives, because it is very possible that you may go out on a hot day, but be faced with a cool and wet evening on your return.

Most people wear shorts and a T-shirt during the day and put on long-sleeved shirts and long pants in the evening for warmth, as well as protection from insects. Meal times are generally informal so it is not necessary to dress up in formal clothing for dinner.

We hope that this checklist will help you pack. Wishing you a fantastic bush and wildlife safari with us.
